WELCOME TO OUR NEWSLETTER

Hello and welcome to our latest newsletter issue. Many things have happened this year for us personally and within the security industry. For us, we were lucky enough to see excellent business growth since the onboarding of our new MD in December 2022. While in the security industry – the SIA has had some new updates regarding its security licenses.

SIA LICENCING

NEW REQUIREMENTS

The SIA now expect applicants for a door supervisor or security guard licence to do the same.

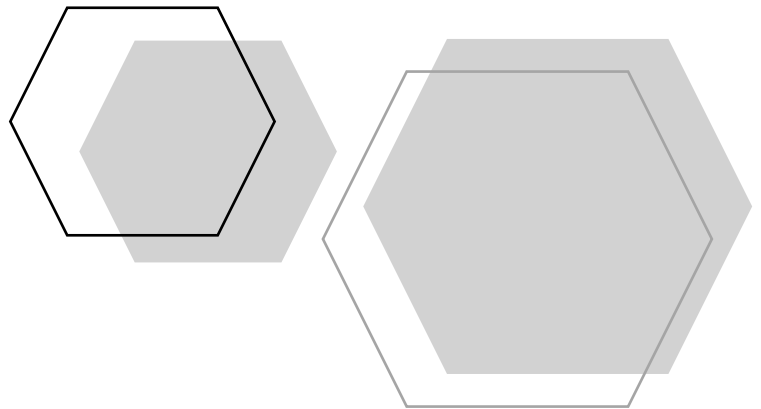

You will need to do this if either of the following apply:

- you are applying for a licence for the first time
- it has been longer than 3 years since you last held a licence for that activity

You will also need to do this if you are renewing your licence.

The qualification must be an Emergency First Aid at Work qualification or equivalent.

The requirement for first aid training will improve your skills as an SIA licence holder. It will not change the obligations you have when responding to an emergency.

UNIFORM

BE READY FOR WORK

Having a good uniform is extremely important. Here at We Secure Ltd we want all of our officers to look presentable. We also want to ensure that our guards are well protected and that their uniform is of good quality.

SIA licence armband holder

Please remember to wear your armband holders securely with visibility through a waterproof transparent plastic capsule highlighting your SIA licence to the general public at all times.

Hi-vis jacket

Along with your armband, a hi-vis jacket is required while on duty to set you apart from members of the public.

When working closely with our parents all staff are reminded of the importance to ensure that they are wearing correct PPE at all times.
